PROFILE

I'm a detail-oriented web developer looking to join a creative team to build beautiful/responsive applications! I am organized, efficient, and I have an extremely strong work ethic. Critical thinking and problem solving are what I excel at. I love keeping my brain thinking, learning and improving. I'd love to talk about joining your team! *Portfolio - jamesfreitag.dev*

EXPERIENCE

Camping World, Island Lake, IL— Maintenance Tech.

May 2023 - PRESENT

Document and report diagnostics tests and repair. Track all parts and materials used in repairs. Ensure the final product meets or exceeds quality standards.

Tybee Vacation Rentals, Tybee Island, GA—Lead Tech

April 2016 - April 2023

Complete work orders as assigned. Check up and train new techs. Install and repair electronic/wifi entry systems. Troubleshooting computer systems in the office. Troubleshoot wifi, cable and remote systems for owners/guests.

PROJECTS

Sorting Hat — *Facebook style clone but Harry Potter Themed.*

Currently it is in React and Tailwind. I am in the process of switching it to Next JS to make a backend easier to use. PostgreSQL will be handling the DB for all my content on the page. I have enjoyed working on this one the most!

Oriole Clone — Chicago *restaurant website clone*

Just a simple website clone using Next JS and Tailwind. The biggest issue I had was trying not to improve it. I wanted to make it one for one as close as I could.

Expense Tracker — *Expense tracking application*

Another simpler application that I wanted for myself to track my own expenses without paying for an app online. I used React and Tailwind with some simple local storage to save my inputs.

SKILLS

- HTML
- CSS
- Javascript
- React JS
- SQL
- REDUX
- Node JS
- Git
- Next JS
- Tailwind Css
- SASS
- Framer Motion

SOFT SKILLS

- Communication
- Critical Thinking
- Problem Solving
- Reliable
- Motivated
- Testing & Debugging
- Attention to Detail
- Time Management
- Efficient
- Teamwork

COURSES

- Ui.dev
- Grokking Algorithms
- Javascript from beginner to professional
- Lots of others
